DRIVEWAYS

MAGIC PAVERS™

Magically Transform, Repair, Beautify Over Existing Concrete

Benefits of installing with Magic Pavers, powered by DRiBOND[®]:

- No Concrete Removal/Demo
- Quick Application
- Minimal Preparation Time
- Environmentally Friendly
- Prevents Paver Settling*
- No Long-Term Repairs
- Inhibits Mold/Grass/Weeds
- Reduces Installation Time

Let us work our magic!

With a Magic Pavers installation, customers now have that ability to transform an old, stained and cracked concrete driveway into a hardscape masterpiece within one to two days. It is critical to wait 24-hours for foot traffic and 48-hours for vehicular traffic.

DRiBOND[®] was created to bond (1" or 30mm) thin pavers over existing concrete surfaces without removing existing concrete, which is a costly and time-consuming process. Ironically, if you remove the concrete, you're actually removing the best possible base for your pavers.

DRiBOND[®] is the first polymer modified bonding agent specifically developed for residential concrete driveways. It installs like sand and sets like cement in a fraction of the time it would take to install traditional pavers.

DRiBOND Concrete Overlay Solutions is operating as DBA Magic Pavers.
PATENTS: 9,790,650, 9,885,157, 10,294,159, 10,550,039, 11,001,526, D829932, D829931
*based on sound substrate and proper installation. Must wait 24-hours for foot traffic and 48-hours for vehicular traffic.
